

Energy Credit & Rebate Incentives for 2011

INSULATION, INC.

Always been green, always will be.

The Federal Energy Tax Credit for 2011 applies to Building Envelope Improvements. Owners of existing homes may receive a tax credit worth **10% of the cost of upgrading** the efficiency of the building's envelope. Installation (labor) costs are not included and the **credit is capped at \$500** for all improvements. To be eligible for the credit, the improvement must meet the prescriptive requirements established for it under the 2009 International Energy Conservation Code (including supplements). The following improvements are eligible for the tax credit:

- *Insulation materials and systems designed to reduce a home's heat loss or gain*
- *Exterior doors and windows (including skylights) --- no more than \$200 in total credits can be claimed for windows in years 2006 - 2011*
- *Pigmented metal roofs designed to reduce heat gain, and asphalt roofs with appropriate cooling granules.*

DTE Energy/MichCon Rebates

The DTE/MichCon Energy Savings Weatherization rebate program serves residential customers in single and multi-family dwellings of four units or less, who purchase and install qualified weatherization measures. See the table below for further eligibility information.

To participate in the program, these eligibility requirements must be met:

- *MichCon must be your primary heating fuel supplier, or you must have all electric heat powered by Detroit Edison*
- *The energy-saving measure(s) you install must meet the efficiency and minimum square footage requirements set forth by the program guidelines*
- *The incentive claim form must be completed in its entirety and submitted with all required documentation*
- *Your application must be for measures installed on or after January 1, 2010*
- *Your application must be received within 45 days following the installation of your insulation and weatherization measures*

The DTE/MichCon rebates for wall & attic insulation run from \$125 to \$250. You can find complete information, charts and applications on the [DTE web site](#).

Consumer's Energy is also offering rebates on energy efficiency upgrades and improvements and there are incentives available for home energy audits worth up to \$1350.

Call Ace & Sons at 888.500.4ACE for an appointment. We will make sure you get every credit and rebate available for your home insulation improvements. *Our work has a 100% transferable, lifetime warranty and our insulation is 100% green with the highest R-Value available on the market today!*
